

IMPLEMENTATION OF CDL ANTI-TRAFFICKING LEGISLATION

MAKE THE CALL,
SAVE LIVES.

CORE TRAINING:

What is it?

- The training for CDL A includes watching the Over-the-Road, Local Drivers or Movers and In-Home Delivery training video and receiving and reviewing the TAT wallet card.
- The training for CDL B includes watching the Motorcoach/Transit or School Transportation training video and receiving and reviewing the corresponding wallet card.

WAYS TO TRAIN:

There are a variety of ways to conduct the training:

- We can send hard copies of the Over-the-Road, Motorcoach/Transit and/or School Transportation training videos along with the corresponding wallet cards to each school.
 - To order copies, email info@tatnonprofit.org.
- We can send digital copies (mp4 files) of the training videos to be shared, along with paper copies of each type of wallet card.
 - To request these files, email info@tatnonprofit.org
- If schools have a computer lab, they can have students sign on individually to www.tatnonprofit.org and watch the video, take a quiz and receive a certificate as TAT certified.

Once the training has been completed, we ask that schools register their total number trained on our website [here](#).

EXTRAS:

- We can create co-branded certificates for each school, and instructors can distribute certificates to their students after showing the video.
 - For a co-branded certificate to include school logo, digital signature and title of the person representing the school on the certificate, send the request to: education@tatnonprofit.org.
- The TAT app is available for free on both Android and iPhone. Search under TAT. The apps contain all wallet card information, as well as links to the training videos and website and can quickly assist the user in reporting human trafficking.
- TAT can provide a quiz for each of the videos that can be given to students if an instructor chooses to test them after showing the training video.
- **Additional training for instructors:** We can conduct a webinar or in-person training for instructors to have a deeper understanding on the issue of human trafficking.
- We can also provide HT 101 slides with notes for the instructors to use prior to showing the video and reviewing the wallet card with students.
- No certificate is required. No quiz is required. No further HT instruction is required.
